ACHIEVEMENTS

1 As an experienced Vue.js developer I became the HTML Academy Vue.js course co-author. We are working on the course program, projects, and all materials for the course. More info about the course you can see here: HTML Academy Course Link

2 While working as the Vue.js developer, I passed the selection to the School 42 education. There I met a lot of very talented people. Together we learned Computer Science fundamentals and done a lot of projects in C/C++, Swift, PHP, JS.
My School42 projects on GitHub
More about School42

3 2 enterprise-level projects have been built from scratch:
ORBI Group - hotels services management system
Ciklum - fisheries containers tracking system.
